

Valley Flax Whole Milled Flax Seeds for Horses

FEATURES

- Omega-3 Fatty Acids
- Soluble and non-soluble fibre
- Tastes Great
- Natural seed
- Stability

BENEFITS

- ✓ Horses will take a shine to the essential Omega-3 fats which will not only enhance coat sheen and reduce comb-out time but will also help reduce inflammation
- ✓ Horses will produce bulkier manure which helps to trap gut irritants, such as fine sand, which can cause colic
- ✓ Horses will love the taste of this high quality milled flax seed when you top dress regular ration with a serving of this nutrient dense supplement
- ✓ Whole flax seeds milled to a digestible texture which will enable your horse to take advantage of all the Vitamins, Minerals, Anti-oxidants, Omega-3 Fats, Fibre and Protein which this exceptional product offers
- ✓ Premium milled flax seeds are stable at room temperature for several months. Store dry, away from direct heat and purchase only in a quantity you can use within several months.

Each 6 kg bag provides approximately 60 servings of 1 cup.
Each 10 kg bag provides approximately 100 servings of 1 cup.
Each 22 Kg bag provides approximately 220 servings of 1 cup.

INGREDIENTS Milled Flax Seeds
